

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

While working the road last week R. L. Campbell accidentally scraped a small piece of skin from one of his legs. Blood poison has now set up and for the past week he has been unable to walk. The leg is still no better at this writing, and is causing him to suffer quite a lot.

Mrs. Lucy E. Campbell, of this place, who has been confined to her room for the past eight months with a complication of diseases, died Thursday afternoon, September 17th. It will be remembered that both Mrs. Campbell and her husband, G. G. Campbell, took sick about the same time, the first of last February, Mr. Campbell dying on the 17th of last April. Mrs. Campbell at that time was very low and was not expected to live but a few weeks. But she made a desperate effort to get well. She had all the attention it was possible to give her, but her disease baffled the physicians who more than three months ago announced that they were unable to do anything that would relieve her. Mrs. Campbell was about fifty-eight years old, was the daughter of Mr. and Mrs. Oliver G. Willis, of Eddy, Texas. She is survived by three sons and two daughters. She was a member of the Baptist church. The funeral was preached at the residence Friday afternoon by Rev. T. J. Jesse and immediately thereafter the remains were laid to rest in the family burying grounds, a host of relatives and friends being present to pay their last respects.

Dr. Simpson reduced the fracture and it is doing well. The mule scared at two boys running their horses by him. Anyone that does that should be made to pay for it.

Crimes Against the Balkan Christians.

It seems reasonable to hold that if there had been a decent respect for the commendable desire of the Christian peoples in European Turkey to throw off the Turkish yoke and become self-governing states, there could have been no cause of the present great war in so far as the Servian question precipitated it. If the great powers of Europe had been sincere and unselfish in their attitude towards the Balkan question, during the past two generations, there could have been developed a series of peaceful and progressive countries as harmless and non-military in their instincts as Switzerland, Holland and Denmark. And the proper development of Servia, Bulgaria and Greece would have been in every way advantageous to all the great powers of Europe and detrimental to the welfare of none. Out of this terrible war, therefore, let us earnestly hope there may come an adjustment of the affairs of Southeastern Europe that will be permanent and non-military. The imperial agglomeration of Austria-Hungary seems to serve no good purpose. A rearrangement of provinces and regions, based largely upon race and language, might create in Southeastern Europe almost a dozen small countries of fixed territory, bound together in a league of peace and arbitration and of general friendship, but not forming a military factor for further aggressions.
